

The Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear The Federal Communications Commission,

To the Federal Communications Commission, I use an inexpensive Tracfone so that I can be available 24/7. My child has a life threatening condition so I must always be available. I do not think it is fair to increase taxes on people like me who have to have such a phone. It is an expense I wish I did not have to have. Please do not make this unfairly more expensive. Businesses can write off these expenses. People like me cannot. I choose this type of phone to keep my expenses as low as possible.
Thank you for your consideration.
Sincerely, Colleen T. McSpirit

Sincerely,

Colleen McSpirit
